VETfarm Project Newsletter: Issue 1

VET Demonstration Partnership for Pistachio Farm in Armenia: Geospatial Approach

Tackling the digital skills gap in the horticultural sector of Armenia by improving the integrated use of digital technologies

Project Name:

VET Demonstration Partnership for Pistachio Farm in Armenia: Geospatial Approach

Project Acronym: VETfarm

Project Number: 101128732

Duration: 24 months

Start Date: December 1, 2023

Call: ERASMUS-EDU-2023-CB-VET

About the Project

The primary goal of this 24-month project is to address the digital skills gap in Armenia's horticultural sector. It aims to improve the integrated use of digital technologies, such as IoT, ICT, and Geospatial Technology (Geo-ICT) through capacity-building for agricultural Vocational Education and Training (VET). The project's name, "VETfarm", is an abbreviation for VET demonstration partnership for pistachio Farm in Armenia.

Project Consortium

The project is a collaboration between a consortium of two EU partners and two Armenian partners:

- AgriWatch BV (AgriWatch, Coordinator) - Netherlands
- WIRELESSINFO (WI) - Czechia
- Armenian National Agrarian University (ANAU) - Armenia
- Under Sun, LLC (UNDER SUN) - Armenia

Monitoring Pistachio Orchards

VETfarm Project Successfully Launched with Kick-Off Meeting in Yerevan!

This 24-month initiative, which began on December 1, 2023, is funded by the European Union's Erasmus+ program for Capacity Building in the field of Vocational Education and Training (VET).

To mark the official start, a two-day kick-off meeting was held on December 11th and 12th, 2023, hosted by our Armenian partners, the Armenian National Agrarian University (ANAU) and Under Sun LLC, in Yerevan, Armenia.

The event brought together over 30 participants from all partner organizations, along with delegates and distinguished guests.
